10	Angelina Kigeso	Tengeru Institute of Community Development

2: Reconciliation work: Hope for Girls and Women in Tanzania staff in collaboration with Social welfare from Serengeti and Butiama District office, Police Gender desk officers and Community Development officers managed to conduct the reconciliation session meetings between parents and their daughters in various villages in Serengeti, Butiama, Rorya and Tarime. Total of 26 girls were reconciled and joined their families. The cutting situation in the remote villages is very bad because the cutting is continuing secretly any time to girls, this is why the high number of girls protected to the safe houses is for their safety. Total of 157 girls staying to the safe houses.

Activity 7: Planting the vegetables	Done	The entrepreneur tutor and the girls managed to plants Sukuma wiki na Chinese to the newly cultivated land so that we can have enough vegetables for consumption.
Activity 8: Agriculture and Gardening	Done	During this month, we managed to teach the girls to know on how to grow different types of vegetables by using organic (without using chemicals) at the safe house so that when they return

		home, they will be having the know-how to plant a small number of vegetables for consumption or sale. 135 girls participated in garden work at Mugumu and Butiama.
Plant Nuru farming		
Activity 9: Visiting the farmers	Done	The agricultural office visited the farmers leaders in Butiama and Serengeti advised them on how to add more members to the group but also reminded them how to use Plantnuru app.

8: Entrepreneurship

Tailoring

1. **Soap making:** making practical soap for washing hands, 9 students learned to make soap in practice, 9 students have understood well how to make soap,
2. **Soap Making Class:** The students learned to make soaps from seedlings and cut them, we managed to make 240 soaps, the manufacturing exercise is sustainable, in the production of soaps The raw materials used to make sapling soap are such as; mise oil, caustic solution, griceline, CDE, sless needle, paint, perfume, sodium silicate.

Girls in practical training of making soap

- 3. Cutting and sewing of different types of clothes.** The vocational girls made school uniforms – shirts and skirts.

Farming

- 4. Watering the garden:** During this month, we manage to collaborate with the other staff and continue watering green vegetables. The person who is responsible for the green vegetable garden is responsible for making sure that he teaches all the girls in the center to understand the tasks of the garden. Also, they are responsible for guiding the girls to watering the vegetables in the garden.
- 5. Doing weeding the garden:** During this month, we have been continuing to weed the green vegetables in the gardens. Also, the girls participate in weeding in the

garden to understand the importance of taking care of the garden when there are vegetables, they should not have other leaves that are not vegetables.

6. **Agriculture and Gardening:** During this month, we manage to teach the girls to know on how to cultivate and plant different types of vegetables by using organic (without using chemicals) while at the safe house so that when they return home, they will be having the know-how to plant a small number of vegetables for consumption or sale by using naturel thing (organic thing)

- planting fresh vegetables in the home garden.
- Also, through our garden from the safe house of Mugumu, we have been able to feed the children daily in this month of December vegetables like Collard Greens and Carrot

Photo showing vegetable at our garden in Mugumu garden.

9: Visiting the farmers. We collaborated with the extension agricultural officer to visit the farmer's community leaders at Kinyariri and Kukirango. During the visit the extension officer they manage to provide technical backstopping by training the famers on how to join the group in their mobile phones. The extension Officer reminded the farmers on how to use PlantNuru app. Also, during the visit he had the opportunity to

learn how to connect new members to the PlantNuru app and to detect diseases and pests on the crops when they are in the field.
